

AMENDMENTS TO THE DRAWINGS

Please replace the drawing sheet showing Fig. 2 with the attached Replacement Sheet. Please note that Fig. 2 has been amended for a couple reasons. First of all, since reference numbers 31-35, designating the waveguides in Fig. 2, are used again for designating the curve sections of the graphs in Figs. 3A and 3B, the conflicting reference numbers in Fig. 2 are changed to reference numbers 24-28 to avoid any confusion. Secondly, line 16 in Fig. 2 has been amended to include a double-headed arrow indicating two-way communication as described on p. 10, lines 23-25 of the present specification.
